

Francesca Fratello

Banking Anti-Fraud Solution Engineer

Via Francesco Carletti 10, Rome, 00154, Italy | +39 366 540 6558 | frafratello18@gmail.com | LinkedIn

PROFILE

Banking anti-fraud professional specializing in payment fraud risk analysis and transaction monitoring, supporting the evolution of anti-fraud solutions within complex application architectures. Within my team, I handle application flow and log analysis, technical and functional documentation, and test planning (NRT, SIT, UAT). I have also built strong project-coordination skills through prior experience in events, managing multiple suppliers and competing priorities under tight deadlines. I am currently strengthening my process and project management foundation through an ongoing degree in Management Engineering, with the goal of growing into roles of greater managerial responsibility.

PROFESSIONAL EXPERIENCE

Banking Anti-Fraud Solution Engineer

Feb 2025 – Present

Alfa Group

- Analyze payment transaction fraud risk using Transaction Monitoring systems, identifying trends and potential fraudulent activity
- Support the integration and evolution of anti-fraud engines within complex application architectures, including payment systems, digital channels, and external systems
- Analyze application logs for troubleshooting, flow verification, and anomaly detection
- Draft functional and technical project documentation, including test books and progress reports
- Plan and conduct test phases (NRT, SIT, UAT), supporting user acceptance testing activities
- Work across all project phases — kickoff, planning, execution, testing, and go-live — liaising directly with client stakeholders in support of the team leader when required

Event Coordination, Hospitality & Customer Service

2021 – 2025

Various clients and venues

- Independently coordinated event operations involving multiple suppliers and stakeholders, managing deadlines and shifting priorities in fast-paced, high-pressure settings
- Developed strong priority management, problem-solving, and mediation skills across clients, suppliers, and teams — core competencies for project coordination roles

EDUCATION

B.Sc. in Management Engineering (L-9) — Uninettuno International Telematic University 2025 – Ongoing

Master's Program, Data Analyst — Link Campus University 2024 – 2025

Diploma in Computer Science & Telecommunications — ITIS G. Armellini 2019 – 2024
